Discover your talent, advance your skills, and win scholarships in cybersecurity with [CyberStart America](#)!

CyberStart America is a **free** national program that gives students in **9th-12th grade** free access to the world-renowned CyberStart game.

Whether you're a complete beginner, a hobbyist looking for fun puzzles, or already have some cybersecurity knowledge, [CyberStart America is for you](#).

From **October 27 2021**, you will get access to over **200 unique security challenges** which you'll solve as a cybersecurity agent investigating criminal gangs. Crack the codes, find the flags and deal with real-life cyber challenges as you build an impressive set of cyber credentials.

"If you told me two years ago that I would be interested in cybersecurity, I would laugh a good deal. Having tried out cybersecurity, I have come to realize that cybersecurity provides thrill, teamwork, mystery, and competition! It doesn't matter what your personality is, cybersecurity could very likely fascinate you." – **Talya, Texas**

Plus, learning with CyberStart means no textbooks or lectures! Advance your skills in topics like password security, network forensics and steganography with fun challenges and simulations.

Complete as many challenges as you can in CyberStart and you may qualify for scholarship opportunities offered by the National Cyber Scholarship Foundation! Build a portfolio of skills, badges and certifications recognized and desired by employers so you can secure your dream role.

You can start playing on October 27 but [register right now](#) to make sure you don't miss any alerts, news and updates!
